

Thermoacoustic Emitter

broadband air-coupled ultrasound source

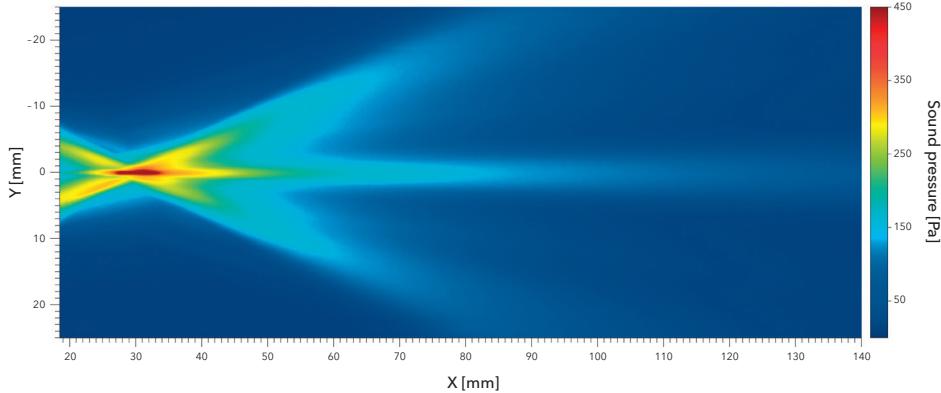

moving sounds without moving parts

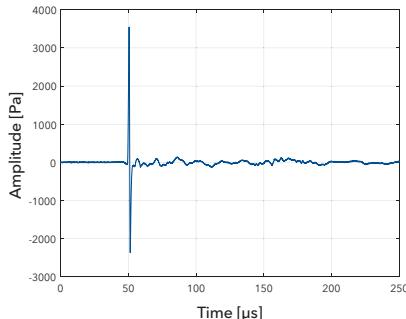

xarion
laser acoustics

Features

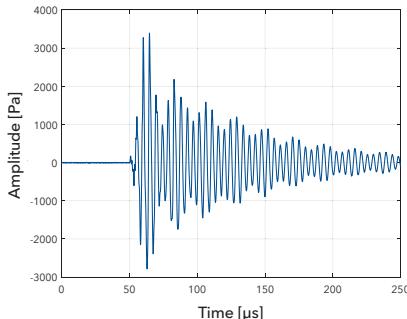

Emitter type	thermoacoustic	Focal spot size	\varnothing 1 mm
Frequency range	10 kHz - 1 MHz	Focal distance	20 or 30 mm
Peak pressure	>2000 Pa (>160 dB _{SPL})	Operating voltage	0 - 750V
Pulse width	1 μ s (FWHM)	Size	\varnothing 42 mm / 52 mm
Acoustic field	focussed	Weight	250 g / 400 g

Acoustic field of a thermoacoustic emitter measured with an Optical Microphone

Impulse response of the thermoacoustic emitter

Impulse response of a piezoelectric emitter

moving sounds without moving parts
